Swim Wales will not be responsible for any jewellery brought to events and will not be liable if such jewellery is lost or damaged.

10. CAMERA USE

Swim Wales Photography Guidance

Following consultation and to ensure consistency across the ASA and Swim Wales events, Swim Wales have made the decision to adopt the same ‘photography at events’ guidelines as the ASA Wave Power.

This guidance applies to all images and videos taken on any type of camera or recording device (including mobile phones). It applies to all training sessions, activities and events run by a Swim Wales affiliated organisation. It should be acknowledged that although the majority of images taken are appropriate and in good faith, images can be misused, and children can be put at risk if common sense procedures are not observed.

Aims

The Swim Wales Photography Guidance aims to help organisations avoid three potential sources of child abuse:

- The use, adaptation, sharing or copying of images for child abuse purposes, either electronically or in print.
- The possible identification of a child when an image is accompanied by significant personal information, which can lead to the child being ‘groomed’.
- The identification and locating of children where there are safeguarding concerns; such cases would include, for example, children who could be compromised by an image because:
 - They have been removed from their family for their own safety.
 - There are restrictions on their contact with one parent following a parental separation.
 - They are a witness in criminal proceedings. **Recommended best practice**
- The publishing of a photograph of a member under 18, either on a notice board or in a published article or video recording (including video streaming) of a competition (‘Publication’) should only be done with parental consent and in line with Swim Wales guidelines.
- A parent or guardian has a right to refuse to have their child photographed. The exercise of this right of refusal should not be used as grounds for refusing entry into a competition. Therefore, any photo that may go to press or on a notice board, be it through a member of the organisation or an official photographer, should receive parental consent before being published or displayed, preferably in writing. A suggested template allowing parents to indicate refusal of consent is provided on the ASA Wave power document p. 117.
- In the case of any event or competition where the host organisation has an official photographer, all parents of members who are attending should be made aware of this in the event details. If photos are to be published anywhere, each individual parent should be given the opportunity to withhold their consent. Their right to do so should be specifically drawn to their attention.

The Swim Wales guidelines state that all photographs for publication must observe generally accepted standards of decency, particularly:

- Action shots should be a celebration of the sporting activity and not a sexualised image in a sporting context.
- Action shots should not be taken or retained where the photograph reveals a torn or displaced swimming costume.
- Poolside shots of children should be above the waist only in a swimming costume, though full length tracksuit shots are approved.
- Photographs should not be taken from behind the starting blocks or that show young participants climbing out of the pool.

Published photographs may identify the individual by name and organisation but should not state the member's place of residence or school attended. The Swim Wales does not wish to stop parents photographing their child if they wish, but all organisations must ensure they do all they can to safeguard each child's wellbeing.

The official photographer

In some cases; the organisation will ask a member or officer to act as an official photographer for an event, and in some cases they may employ a specialist photographer. Their role is to take appropriate photos that celebrate and promote aquatics.

When taking any image, they should be asked to:

- Focus on the activity rather than the individual child.
- Include groups of children rather than individuals, if possible.
- Ensure all those featured are appropriately dressed.
- Represent the broad range of youngsters participating in swimming – boys and girls, children with disabilities, members of minority ethnic communities, etc.
- Organisations should screen applicants for their suitability (just as they would check any other member of staff or volunteer working with children) and then provide training and information on the organisation's child safeguarding policies and procedures.
- The official photographer (whether a professional photographer or a member of staff) should receive clear instructions, preferably in writing, from the organisation at an early stage.
- The organisation should provide them with a copy of this guidance and a clear brief about what is appropriate in terms of content.
- Images should not be allowed to be taken outside the activity being covered.
- The organisation should determine who will hold the images recorded and what is to be done with them after they have served their purpose.

11. DATA PROTECTION

- a) The Promoters, along with the Governing Body, may use computers to record entry times and results.
- b) By submitting entries, you are accepting the conditions and consent is hereby given for holding personal information relating to the sport of Swimming as required by the current Data Protection Act.

12. THE ORGANISERS

- a) reserves the right to return entries in the event of the competition being oversubscribed
- b) reserves the right to remove any person found to be in contravention of 10 (k) above.
- c) reserves the right to amend these conditions later if necessary, without notice,
- d) reserves the right to cancel the event if the meet is undersubscribed
